

Middle of the Funnel

ADS TEAM

Problem: the middle of the funnel segment seems to have linked their account for FP and are stuck in the funnel

Hypothesis: By giving a valuable rewards users will be more likely to make a conversion

Overview & results (Mission KPI)

Overall, the **premium reward has worked** however, has not moved the needle for the partner KPI, where Premium Tokens didn't

Other suggestions?

- **Account and Verification Issues:** Respondents frequently requested help with linking/unlinking Winline accounts, facing difficulties with the verification process (especially for non-Russian citizens, those under 18, and due to complex steps), and encountering account blocks or unresolved issues despite attempts to comply with age and phone number requirements.
- **Winline Mission Feedback:** Feedback included a desire for rewards without extra deposits in Winline, and some users expressed disinterest because the mission promotes gambling.
- **Product and Service Quality:** Some expressed positive feedback about the organization and product, even offering to work for them, while others complained about poor customer service and slow resolution of account issues.
- **Platform/Game Suggestions:** Suggestions were made to add a single-player search option to avoid teamed opponents, change the format of Faceit missions, and adjust the Faceit point value or quantity awarded for tasks.
- **Miscellaneous Requests:** Requests were made for a premium Faceit account, a contact email/Discord handle was provided, and some comments were irrelevant or negative.

Survey results (NO FTD)

Other suggestions?

- **Difficulty and Lack of Clarity:** The mechanics are considered complex, and it is not always clear where all the missions are located.
- **UI Issues:** The UI sometimes behaves incorrectly, such as being redirected to the main page after clicking something.
- **Suggestions for Improvement:** There is a suggestion to hold a drawing for weapon skins among those who complete the mission, in addition to the standard deposit reward.
- **Negative Feedback:** One response expressed highly negative sentiment towards the experience.

Learnings & Next Steps

Top of the Funnel

ADS TEAM

Background

Unresponsive users show consistently low engagement and limited motivation, neither brand propositions nor standard incentives have driven meaningful action so far.

Problem Statement

How can we encourage this user segment to link their accounts with WL or Tradeit?

Hypothesis

Providing premium tokens as free rewards to non-subscribed, unresponsive users will:

- Increase the rate of account linkages with WL and Tradeit.
- Improve overall engagement and retention in this low-activity segment.

Proposed Solution

Introduce premium token giveaways targeted at free users to stimulate account linkage and engagement.

Overview & results (Mission KPI)

Overall, the premium tokens didn't work.
